## Gampel Nutrition Center: Providing nutrition care for nearly a decade

Founded by a registered dietitian with nearly a decade of experience, Gampel Nutrition Center provides individual and group nutrition counseling

to patients with a variety of needs. Whether patients are looking to lose weight, control their diabetes or simply improve their health, we will customize a program to suit any individual need. Through our online support tool Nutrition on Call®, we are committed to providing flexible options so patients can get the care they need when they need it most.

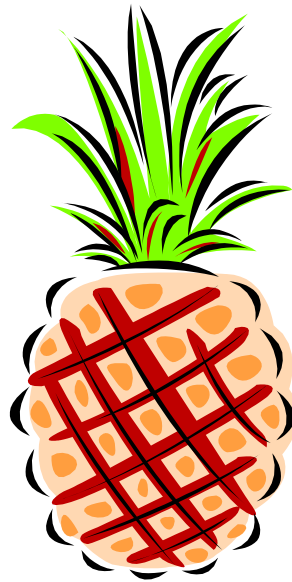

Simone G. Gampel, RD, CDE

### What sets us apart:

In today's health obsessed market, one need not go far to hear any number of claims concerning losing weight or managing diabetes. The fact is, many programs fail because they do not offer customized solutions with sufficient ongoing support. We differ in these areas because we are committed to work with doctor and patient until the specific nutritional goals are met. We take the time to understand what makes each patient unique and we will devise a plan to suit the patient's specific needs and goals. But our service does not end there. We are dedicated to our clientele and are always available when they need us whether by phone, email or online. Our unwavering commitment means that patients receive the support they need when they need it most. No one else can match this dedication.

### Nutrition on Call®:

Patients have often told us that

they were unable to consistently follow a diet because they lacked motivation. Oftentimes patients start out strong with enthusiasm only to lose this sense of excitement as time goes on. Hearing our patient's needs, Gampel Nutrition Center is pleased to introduce our Nutrition on Call® program. Launching in mid-2010, Nutrition on Call® enables clients to receive nutritional counseling via the

web. This is not another diet site but rather a virtual private practice that will simplify how patients receive ongoing support from one of our registered dietitians. This will make the process of seeing a dietitian faster, cheaper and better than ever before.

### Patients we see:

Gampel Nutrition Center specializes in various conditions including:

- Diabetic counseling
  - Type 1 or Type 2
  - Gestational
  - Impaired glucose tolerance
